

Intaglio Space

Texture glass is shaped in a kiln to reflect the imprinted shape of the mold it is placed on before heating. Our designers have created a collection inspired by nature, consisting of eight different textures that can be partially transparent, and if combined with a colored background or mirror, they can be more textured or glittery, and the colors even brighter. These designs allow for separation and privacy in many private and commercial applications.

| | |
|---------------------|--|
| max. dimensions: | 2900 x 1900 mm |
| thickness: | 4, 5, 6, 8, 10, 12 mm |
| safety treatment: | tempered, laminated, tempered and laminated |
| glass type: | low iron, float, blue, bronze, grey, green |
| processing options: | drilling holes, cnc cutouts, shaping |
| applications: | balustrade, cladding, facades, dividers, shower cabins, partitions |
| cleaning: | Texture glass can be cleaned with liquid cleaners and paper towels, or soft clothes. Liquid cleaners without ammonia are recommended. Avoid all abrasive cleaning materials. |

REMARK: Due to the manual and unique method of production, certain differences from the shown sample are possible.
