

Multiple Bronze

Metal Mesh allow you to insert a wide range of woven metal meshes between two layers of glass. Decorative and aesthetic qualities from finely woven gauze to thick woven fabrics are preserved by the structural strength and practicality of glass. This product is ideal for structural, decorative or acoustic purposes in interiors and can be used as screens, partitions or coverings. Metal mesh laminated glass is available in three different types and colors of mesh: silver, gold or bronze. Metal mesh laminates combined with our other techniques including lamination, mirroring and digital printing create an endless range of new possibilities.
